COMPANY BROCHURE

Audio Visual Sports Timing

We provide sports timing... and then some!

Our equipment is specifically designed to be employed at sports events, currently being used at major events like the London Marathon and World Triathlon Series.

Our team have over 500 events worth of experience between us and can adapt to any requirements, no matter how different.

There is no limit to the amount of participants we can cater for.

We will attend with a back up for every piece of equipment, so you are guaranteed a set of results immediately.

The results are posted live to the internet, a video is produced to YouTube and you get a results portal that you can share with as many people as you wish. No pieces of paper!

Live Results

Our systems connect in numerous ways, but all have sims cards in built. This means that the equipment can be placed anywhere and we have the data instantly.

Our system will then calculate the data and is available to you via your results portal within seconds.

We also provide a TV at the finish, for people to assess their performance, which in itself is a great social experience.

NEW: DIY BLUETOOTH TIMING EQUIPMENT.

The DIY Bluetooth timing option (Package 1) is ideal for low density events like fun runs, or ultras. We will send you the chips and equipment, plus support you remotely to get your results. Once finished, simply send the kit back.

CHIP TIMING: WHAT'S INCLUDED

Our sports timing packages have been designed to provide the essentials for any sports event and all include as standard (package 2):

- Staff at your event
- Elite Timing Equipment
- Live Results
- Personalised Results Email
- YouTube video
- Results TV at the finish
- Re-usable Timing Chip (Shoe, Ankle or Batons)

CHIP TYPES:

Dependent on your sport and requirements, we offer numerous types of timing chips:

YOUTUBE VIDEO:

We are proud to be the first timing company in the UK to offer a YouTube video with integrated results – Free of Charge with all of our Chip Timing Packages (2-5)! Included is a video of all finishers, plus an API that shows participant times and results in built. A great extra that allows people to relive and review their finish!

RESULTS EMAIL:

We send all finishers a personalised email with PDF certificate, congratulating them on their performance. Included in the email, is a personalised description of their result. A link to the full results, YouTube video and any photographs taken. This can be done as they cross the line, or once all have finished.

WHAT HAPPENS ON THE DAY:

- We arrive two hours prior to your event
- We will provide you with the timing chips and bibs etc (if ordered)
- We will provide your team with a entrant list
- Our team will set up the required equipment
- The team will show you how to access your results
- We will provide a set of results based based on your requirements

RACE EQUIPMENT HIRE:

We have numerous partners who we can source Event Equipment at favourable rates, just to make your life easier:

- Toilets
- Barriers
- Gazebos
- Bike Racking
- Obstacles
- Event Villages
- LED Screens

RACE NUMBERS:

We offer Race numbers to suit your sport.

For running we offer our standard AV Timing bibs or a fully bespoke option.

For cycling, triathlon, swimming, athletics and motorsport, we either meet or exceed the required standard.

FINISH OPTIONS:

The finish line is a special memory for most participants, so in addition to our standard timing we offer:

- Finish Arch/Gantry & Winner Tape
- Race Clock
- Commentary
- Lead Car/Bike with Clock
- Finish Line Photographer
- DJ & Music

FREE UPDATES/TRANSFERS

Our system saves you staff resources by automating changes and transfers.

In the confirmation email is a link, that an entrant clicks, they then make the relevant changes and press save, agreeing to the new T&C's.

The information is automatically updated, meaning you don't have to spend time manually arranging.

ONLINE REGISTRATION

To host a successful event, you first need participants

We offer a registration service, with benefits!

It is Free to the Organiser, with a simple competitive Admin Fee charged to the entrant.

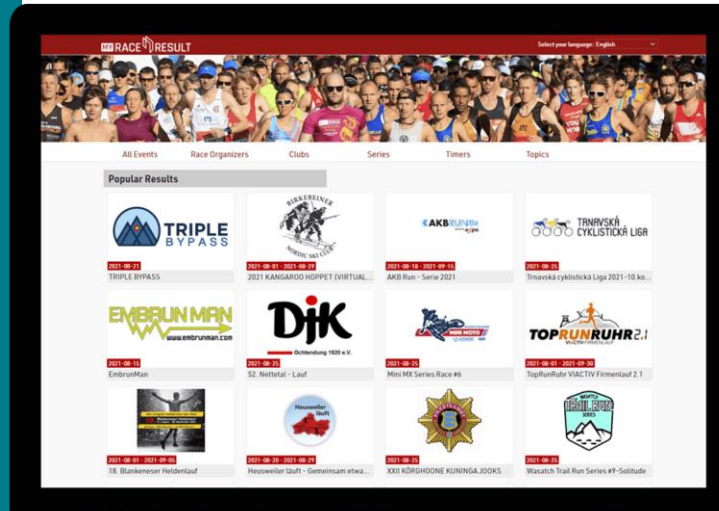

Included with our service, is a specific website address, a bespoke info page, a live CSV link to your data and fully customisable sign up fields!

The page integrates with Stripe and PayPal to receive payment, meaning it always has the latest compliance and security.

We can offer different rates based on the information input, add ons and discount codes.

Once your event is live, we will frequently promote the event on our Social Media Channels.

Unlike other websites, our Registration page communicates with the timing software, meaning updates are instant, and the entry page can be left open all the way up to the event start time, allowing you to create more income!!
